

# Quick Guide

## *Flipsilent designed for BlackBerry® Wireless Handheld*

### About

*Flipsilent* can silence your BlackBerry Storm immediately by flipping the device over.

### Installation

Extract all contents of the .zip file to a single directory and select the .alx in the "Application Loader" of your "BlackBerry Desktop Manager". Follow the instructions and the program will be installed on your BlackBerry®. A more detailed guide on third party program installation can be found here:

- [Install Applications using a Microsoft Windows Desktop](#)
- [Install Applications using a Mac OS X Desktop](#)

### Post Installation

Please note that when opening the program for the first time, it will ask whether you would like to grant permissions and trusts to the application, please be sure to select "Yes" and "Allow". This is important as the program WILL NOT WORK without these fields enabled.

### What *FlipSilent* does

By having this application, it quickly silences your BlackBerry® Storm by simply just flipping it over. Then it will stay silent until you flip it back again. Please note that the device must start in a face up position (screen facing up) for the application to function.

### How to use *FlipSilent*

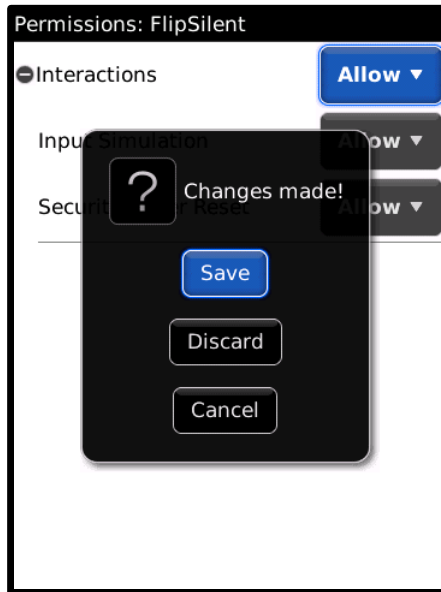

To begin using , simply open the application and check off "Enable FlipSilent" and it will function on your next call. Once you have an incoming call just flip the device so that the back side is up and it will go silent. Device will remain silent as long as the device is in that position. As soon as you flip it back everything will be back to normal.

### *FlipSilent* works after device reset.

In case you pull out the battery or somehow a device reset occurs *FlipSilent* automatically notices this and restarts itself. So you can always be sure to silence the device quickly if needed.

Trust *FlipSilent*.

Allow Application Permissions.

Use *FlipSilent*.

### *FlipSilent* in Action

A short video demonstrates how *FlipSilent* works in real life!
