Quick Guide

PowerControl designed for BlackBerry® Wireless Handheld

About

PowerControl helps to schedule your device to turn on/off .

Installation

Extract all contents of the .zip file to a single directory and select the .alx in the "Application Loader" of your "BlackBerry Desktop Manager". Follow the instructions and the program will be installed on your BlackBerry®. A more detailed guide on third party program installation can be found here:

- Install Applications using a Microsoft Windows Desktop
- Install Applications using a Mac OS X Desktop
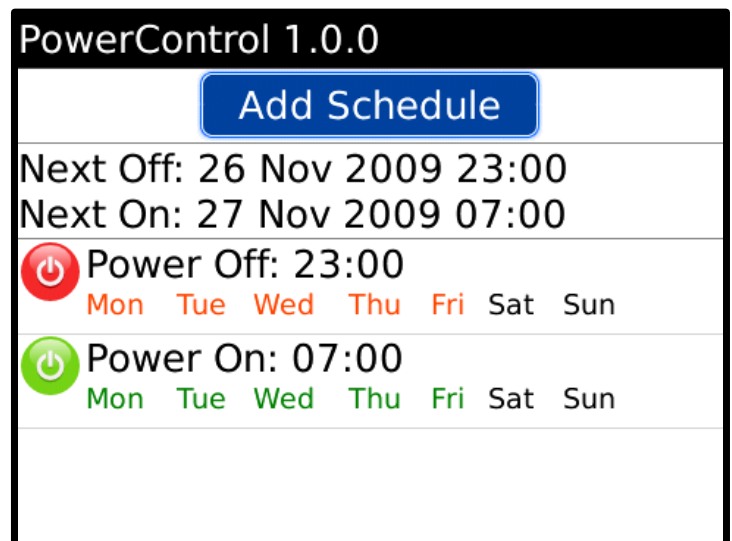

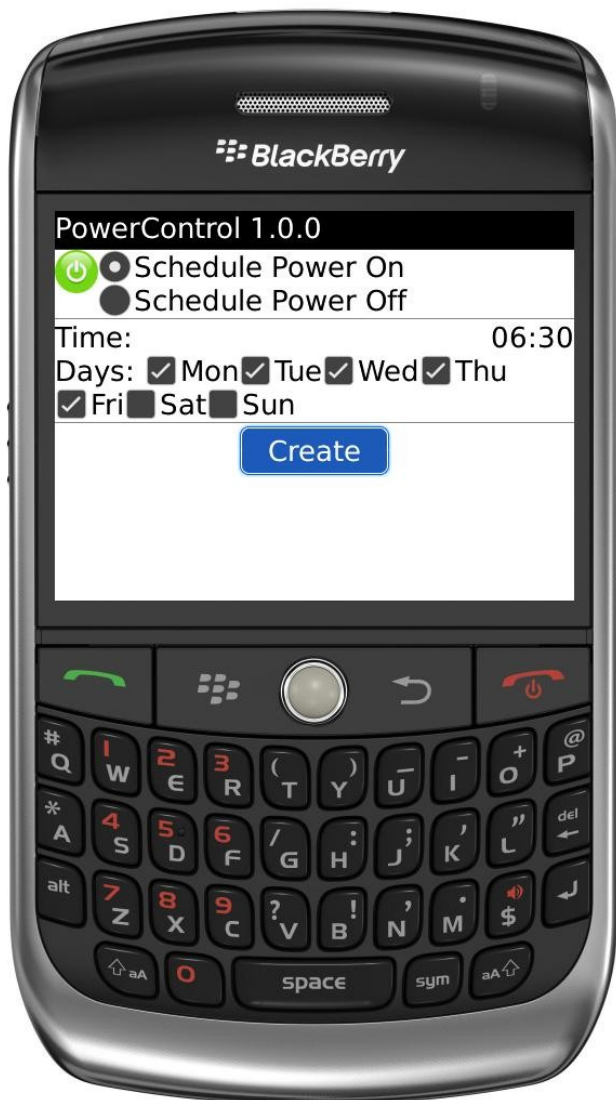

What *PowerControl* does

PowerControl is a handy software that helps you automatically shutdown and, power off at a scheduled time you specified. It allows you to set up a power off and on schedule from Monday to Sunday and you can even set up a different schedule for each day.

By shutting down the BlackBerry® on regular basis, a lot of battery power can be saved. Now the BlackBerry® does not need to be charged as often as before.

How to use *PowerControl*

Setting up a new schedule for powering the BlackBerry® on or off is fairly simple. *Remember: for every power off schedule you should add a power on schedule!*

1. Click on "Add Schedule"
2. Select "Schedule Power on" or "Schedule Power Off" according to your needs.
3. Set the time that you want the schedule to occur.
4. Click on the days that you wish to schedule a power on/off.
5. Select "Create."
6. Schedule is now shown on the main screen. Done :)

Requirements: BlackBerry® OS 4.1 or above
